Role Models

Women who already work in Tech can sign-up for our Role Model Program

Training Program

First, you will get professional skill trainings, with an extensive 'follow-up' program

Community

Next, you join our Community of Role Models

Inspire!

You are ready to inspire different generations of women, with your story on different platforms. You are ready to **Role It Out!**

Trained role models can...

- Share their career experience
- Speak on conferences
- Present at career events
- Help your Brand on Social Media
- Go to educational institutes
- Showcase their work in Tech
- Be a mentor for female students and interns
- Initiate technical projects for female students
