**Odyssey Technical Solutions. The World's Largest Dedicated RF, DC, Microwave Equipment Repair Company—in business since 2000. Odyssey procedures and processes developed over many years are designed for repeatable success in our repairs and to give our customers a high level of confidence that we will do it right—the first time.**

Top reasons why you should choose Odyssey for your equipment repair:

1. Quality, turnaround, and price leader.
2. Many years of repair experience and knowledge of semiconductor and industrial applications.
3. Dedicated customer service reps who will advocate on behalf of the customer and "make it right".

RF, DC, & MW Equip Repair Experts -ISO, ESD, & IPC Certified
